Every Telephone Is A Long Distance Station

Bell long distance telephone lines are the voice highways of America. Every telephone among the 13,000,000 operated by the Bell System and its connecting companies is in potential connection with every other and can be placed in actual connection when desired.

This vast system of communication is at the disposal of the business men of America for commercial use and may be used likewise for personal messages between far separated relatives and friends. Call from your own telephone. Ask for "Long Distance."

ILLINOIS BELL TELEPHONE COMPANY

Information About Telephone Service

Subscribers Will Find It to Their Interest to Familiarize Themselves With the Contents of These Pages

The Company and its subscribers are mutually interested in everything that will assist in bringing the telephone to the highest possible standard of efficiency. One of the most important means of raising the standard is a better and greater knowledge on the part of the subscribers and patrons of the best method of procedure in using the service. The data on this and following pages contain valuable information and suggestions which, if studied, will help you to use the telephone more efficiently.

Local Telephone Service

Subscribers' Numbers. Each subscriber is designated by an exchange prefix and number which are placed to the right of the name and address in the directory. Always obtain the correct number from the current issue before making a call.

To Use the Telephone Properly. Place the receiver close against the ear, and the lips directly in front of and close to the mouth-piece of the transmitter. Speak in a moderate tone of voice and talk distinctly.

How to Make a Telephone Call. Take the receiver from the hook and place at the ear. If your telephone has a signal attachment, give one quick turn of the crank before removing the receiver from the hook. The operator will say, "Number, please?" Give the exchange prefix and number of the subscriber wanted (for example: Hammond 123 [one-two-three] giving each figure separately) and the operator will repeat them to avoid mistakes. Remain with the receiver at the ear until an answer is received. If the line desired is in use, either the "Busy Signal" (an interrupted, buzzing sound) will be heard or the operator will notify you of that fact. The Busy Signal means that the line called for is connected with some other line. Always hang up the receiver when through talking. If your telephone has a signal attachment, hang up the receiver and give one quick turn of the crank, to notify the operator to disconnect.

How to Answer a Telephone Call. Remove the receiver from the hook and answer promptly by giving your number or name (or both) or the firm's name, for example, "This is Gary 345 (three-four-five), Mr. Jones talking," or, "Jones-Haskell Company, Mr. Jones talking." Avoid the use of such phrases as "Hello!" "Well?" and "What is it?"

Answer Calls Promptly. Always answer calls promptly. Failure to do so keeps the calling party waiting and may result in the loss of a message.

To Attract the Operator's Attention during a connection, move the hook up and down slowly several times until the operator answers. Do not move the hook rapidly as this will prevent the operator from receiving the desired signal. If your telephone has a signal attachment, hang up the receiver and give a quick turn of the crank the same as when making a call.

Wrong Number. If, for any reason, you are connected with a telephone other than the one you called, do not hang up the receiver. Move receiver hook slowly up and down as directed in the preceding paragraph, to attract the operator's attention. If your telephone has a signal attachment, hang up the receiver and give a quick turn of the crank the same as when making a call. She will answer by saying, "Operator." Inform her that you have been given the wrong number, repeating the prefix and number you wish, and she will, if possible, secure the proper connection for you.

Service Complaints. To report any irregularity in the service, ask for the Supervisor (the Manager's representative at the switchboard in charge of the operators handling your calls) who will answer by saying, "Manager's Office." Report the facts to her; she is in a position to give you immediate assistance and will do whatever is possible to straighten out any difficulties in the service which may arise. If you wish the Manager personally the Supervisor will connect you with his telephone.

Information About Telephone Service—Continued

Report Trouble. When your line or equipment is out of order, report (from nearest telephone) by asking for "Repair Clerk," giving your exchange prefix and number and the nature of the trouble, if known.

Subscribers' Listings. The Telephone Directory is published to place at the disposal of subscribers and patrons, in the most convenient manner possible, an accurate list of telephone subscribers.

Listings are limited to those that are absolutely necessary to enable patrons to find the telephone number desired. Private Branch Exchanges have only one listed number although many trunk lines and terminals may be in use.

Changes in Subscribers' Listings. Subscribers are requested when they desire any change made in their directory listing to notify the Company in writing as soon as possible or at least ten days in advance of the date of publication of Telephone Directory.

Use Directory of Latest Issue. To secure the telephone number of the person to whom you wish to speak, refer to the latest official directory. Call by number (not name) to avoid errors and delays.

When calls are made for telephone numbers that have been changed for any reason, the new telephone number will be given.

Dates of Directories. Directories are published as frequently as necessary, advance notification of which appears in the local newspapers.

New Subscribers' Numbers. For subscribers' numbers not found in this directory call Information Operator.

A Ready Reference Register is provided (see inside front cover or foot note thereon for location) on which a convenient record can be made of names and exchange prefixes and numbers of the people whom you frequently call. The use of this page will save time of subscribers and increase the efficiency of the service.

Before exchanging or destroying your old Directory be sure to tear out the Ready Reference Page and check the names and exchange prefixes and numbers thereon with the new issue, making any changes or additions necessary, after which transcribe the entries on the Register in the new Directory.

No Liability for Damage arising from errors or omissions in making up or printing the directory is assumed by the Company. Extraordinary precautions are taken to avoid errors.

Party Lines. The continuous use of a party line is limited to five minutes. Subscribers are necessarily associated on the line with others located nearest to them using the same class of service. Mutual accommodation, usual in public service of any kind (where two or more persons are concerned), should be extended by party line users.

Bills for Local Service are rendered in accordance with the provisions of the contract and are payable monthly in advance. See page 8.

Telegrams by Telephone

Call by Name. To facilitate sending telegrams and cablegrams patrons should call by NAME for the Postal Telegraph-Cable Company, and for the Western Union Telegraph Company.

For Postal Telegraph-Cable Company—Call "POSTAL TELEGRAPH."

Patrons calling "POSTAL TELEGRAPH" will be connected with the office designated by that Company to receive telegrams or cablegrams by telephone.

For Western Union Telegraph Company—Call "WESTERN UNION."

Patrons calling "WESTERN UNION" will be connected with the office designated by that Company to receive telegrams or cablegrams by telephone.

Patrons desiring communication with telegraph companies for any other purpose than to send a telegram or cablegram should call by EXCHANGE PREFIX AND NUMBER in the usual manner.

Any subscriber having the slightest doubt as to the identity or the right of the person representing himself to be an employee of the Company should inspect the credentials. **Beware of bogus collectors or inspectors.**

Attachments to Telephones. Telephone instruments have been designed as they are to produce the best results and are, necessarily, very sensitive and intricate. The various unauthorized devices offered for sale, which are supposed to improve transmission, eliminate noise, destroy germs, supplant the telephone directory, etc., are unnecessary. Many of them get the telephone lines and instruments into trouble, and the Company, to protect its service, is compelled to remove them.

Subscriber's contracts provide that no instruments or appliances not furnished by the Company shall be attached to or used in connection with its instruments or lines.

Public Telephones. Public telephone facilities are provided for the convenience of the general public in Railroad Stations, Department Stores, Hotels, Places of Amusement and in thousands of other locations throughout the city and suburbs. Long Distance Telephone Service

The information given below is for the purpose of explaining the various classes of Long Distance service furnished. A careful perusal of this matter will enable subscribers to apply the service most advantageously.

Station-to-Station Service

The term Station-to-Station service is defined as a connection between any two telephones (including private branch exchange switchboard operator) and does not contemplate the establishment of conversation between particular individuals or departments of private branch exchanges.

Under Station-to-Station rates a charge for a message is made in all cases where a connection is established with the called station.

MESSAGE RATES STATION-TO-STATION (BASIS)

Day Rates: 4:30 A. M. to 8:30 P. M.

AIR LINE MILEAGE DISTANCES		INITIAL RATE		OVERTIME RATE	
More than	But not to exceed	Rate	Minutes or Fraction Thereof	Rate	Minutes or Fraction Thereof

32	40	.30	3	.10	1
40	48	.35	3	.10	1
48	56	.40	3

Overtime rate for distances more than 48 miles, approximately one-third initial rate for each additional minute or fraction thereof.

For each additional 8 miles or fraction thereof, 5 cents additional. All initial rates for distances beyond 56 miles are for periods of three minutes or fraction thereof.

Evening Rates: Between 8:30 P. M. and 12 Midnight, **one-half** of the day rates.

Night Rates: Between 12 Midnight and 4:30 A. M., **one-fourth** of the day rates.

Minimum "Evening" or "Night" rates, 25 cents.

Long Distance Telephone Service—Continued

In applying Day, Evening and Night rates, the time of day at the originating point shall govern.

The time at which connection is established governs the rate in determining whether the Day, Evening or Night charge applies.

If connection is established in one period and terminates in another, the rate in effect at the time the connection is established applies to the entire message.

Person-to-Person Service

Calls for particular individuals are accepted at a rate **one-fourth more** than those quoted under Station-to-Station service, subject to the following regulations:

Orders for Person-to-Person service are accepted only under the condition that a limited charge (known as "**Report Charge**") will be made in the event the Company is unable to establish communication for any one of the following reasons:

1. When the order is to establish communication with a particular person in a given city, telephone address unknown, and the particular person cannot be secured within one hour (exclusive of any time during which "no circuits" or other cause prevents communication of the order to the distant city or exchange, or its completion).

2. When the designated person called refuses to talk.

3. When the report is returned within one hour (exclusive of reported delay) that the designated person called is "out" or "out and will return at (specified time)" or "out and time of return unknown," "is absent from the city," and similar reports advising the calling subscriber of the facts ascertained when failure to complete the order is due solely to the circumstances of the called person or to fault in describing the location of the called person, and when all of the work preliminary to establishing communication with the called person is done.

4. When communication between the designated persons cannot be established because the designated person at the calling station is absent at the calling station; provided that no charge shall be made in such cases where the delay, if any, in establishing connection is greater than one hour (exclusive of reported delay).

5. When the designated person at the calling station refuses to talk when the facilities for communication have been established.

A **Report Charge** in addition to regular message charge is not made provided the call is completed on the day it is filed.

In any case where a Report Charge applies, the minimum Report Charge is 5 cents and the maximum \$2.00 — approximately **one-fourth** of the initial Station-to-Station rate.

No Person-to-Person rate shall be less than 15 cents.

To points where the Station-to-Station rate is 5 and 10 cents, a Person-to-Person call is accepted at the 15 cent rate.

Long Distance Telephone Service—Continued

The initial period on all Person-to-Person calls is three minutes. An additional charge is made for each additional minute or fraction thereof. On a 15 cent, 20 cent or 25 cent message the charge for each additional minute is 5 cents. On a 30 cent message the charge for each additional minute is 10 cents and on all messages where the initial rate is 40 cents or more a charge equal to approximately **one-third** the initial rate is made for each additional minute or fraction thereof.

Appointment Calls. An Appointment Call is a Person-to-Person call on which communication is to be established at a specified time.

The rate for an Appointment Call is approximately **one-half** more than the Station-to-Station rate; but in the case of any Appointment Call, where the distant station is reached, whether the appointment be made or not, the Report Charge applicable in case of Person-to-Person calls shall be made.

Messenger Calls. Messenger Calls are Person-to-Person calls requiring the use of a messenger, to secure a designated person.

The rates for Messenger Calls shall be the same as apply to Appointment Calls, plus any charges that may be required for the services of messengers.

Messenger charges incurred are to be paid even if desired conversation is not held.

Collect Calls. Collect Calls are Person-to-Person calls, the charges for which are "reversed;" that is, to be collected from the called station, provided the charges are accepted by the person called.

Evening and Night Rates as described in Station-to-Station schedule do not apply to Person-to-Person calls, the rate being the same on these either day, evening or night.

To Make a Long Distance Call. Call the local operator in the regular way and ask for "Long Distance." When the Long Distance operator answers, give her the name of the town or city desired. If you wish to file a **Station-to-Station** call, notify the operator that you will talk with anyone who answers the telephone at the desired address (see Station-to-Station service, page 9). If you wish to file a **Person-to-Person** call, give the operator the name of the particular person wanted (see Person-to-Person service, pages 10 and 11). In either case, furnish the telephone number desired (if known); otherwise give the firm name or the name and initials of the person under whose name the telephone is listed, and, if possible, the street address. Then give the number of the telephone from which you are calling and your name.

Requests for Charges. If a patron desires notification of the amount of the charge on his message he will save time by so advising the operator at the time he gives his call. If the request for such information is not made until the completion of the conversation, unavoidable delay results while the operator obtains the rate and computes the charge.

Bills for Long Distance Service are made from the 16th of one month to the 15th (inclusive) of the next month, in order that they may be issued at the beginning of each month.

Supervision by Private Exchange Operators. The long distance operator is held responsible for the supervision and timing of all messages and for the character of the service furnished. Supervision of connections by Private Branch Exchange Operators interferes with satisfactory service, and such operators should not remain "cut in" on the line after the connection has been established.

You may seldom if ever have occasion to talk to places thousands of miles away but you do have frequent use for service to places nearer home.

Rates are reasonable and the station-to-station rates are lower after 8:30 P. M. The different classes of calls and the rates are fully explained elsewhere in this directory.

FOR YOUR INFORMATION

When several related lines of business work together intelligently to serve the public through their combined experiences and resources—they can furnish more complete and more efficient service than would be possible if each functioned independently—and at less cost.

The Reuben H. Donnelley Corporation has built up just such an organization. Whoever you are, we have some service that would be valuable to you.

Which of our services meet your needs:

Classified Telephone Directories

We publish Classified Telephone Directories in Chicago and suburbs, New York, Brooklyn, Cincinnati and the states of Illinois and Connecticut. Millions distributed free every year.

Donnelley's Red Books of Manufacturers, Distributors and Business Services

Nine regional directories cover practically the entire United States. Through them the Manufacturer, Distributor or Business Service can get direct representation in practically all parts of the country. A million free circulation annually.

"For the Bride"

DIRECT RESULTS

are what the advertiser wants, and to get direct results he must employ direct mediums

What medium can be more direct than the one that will carry your message before the prospective customer when he wants to buy your class of goods?

The classified directory is not used promiscuously or for amusement—but is used by business men and housewives when they want to buy certain commodities and do not know exactly where to secure them.

Greet this business man or housewife with your business card. It will pay you.
